MAKE IT BIG, BOLD & BEAUTIFUL IN-HOUSE

The printer that makes it all possible

Introducing the imagePRESS C165

Combining the best of our award-winning technology with a suite of user-friendly tools, the imagePRESS C165 lets you get creative at the push of a button. Compact, versatile and perfectly suited to your day-to-day printing needs, the imagePRESS C165 delivers exceptional print quality every time. And best of all, you don't need to be an expert to achieve amazing results.

TRULY BRILLIANT COLOUR

When only the brightest, most accurate colour will do, the imagePRESS C165 goes above and beyond. With the ability to control colour management like a pro, your banners, booklets and brochures, as well as your invitations and other marketing materials, will be 100% on brand and ready to engage new audiences, customers and stakeholders.

2400 X 2400 DPI PRINTING

Achieve sharp image quality with imagePRESS R-VCSEL Laser and incredible detail with 190 LPI (Lines per inch). Fine lines, small text, and highly detailed photos and graphics are rendered with incredible accuracy and sharpness.

COLOUR STABILITY

Ensure incredible colour consistency even when printing at volume. With a number of colour-stabilising technologies on board, including Multi-D.A.T (Density Adjustment Control), to deliver real time colour calibration to ensure consistent quality.

MORE MEDIA MEANS MORE VERSATILITY

If your printing needs vary day in, day out, you need a printer that can keep up with whatever you throw at it. Highly adaptable and versatile, the imagePRESS C165 is capable of handling a diverse range of paper sizes, weights and surfaces, including coated and uncoated stock.

1300 mm LONG CAPABILITY

Perfect for POS displays, posters, hanging banners and more.
The imagePRESS C165 supports single-side 1300 mm sheets from 64-300 gsm.

350 GSM PRINTING CAPABILITIES

Bring those heavy printing jobs back in house. Whether you need to print business cards, invitations or sales materials, the imagePRESS C165 can support paper stock up to 488 mm at 350 gsm.

EXCEPTIONAL COLOUR TRANSFER

Set your printed materials apart from the pack. The imagePRESS C165 allows for perfect colour transfer even on rough and embossed paper, which makes it the perfect printer for eye-catching covers, inserts and leave behinds.

ACCESSORIES IDEAL FOR ANY BUSINESS

FIERY SERVERS FOR CANON IMAGEPRESS C165

EFI offers two optional Fiery servers for the Canon imagePRESS C165. Fiery® Edge™ - EFI's next generation colour profiling technology inside imagePRESS L30 and M10 Servers. The imagePRESS Server L30 is an external digital front end (DFE) while the imagePRESS Server M10 is an embedded DFE.

CANON IMAGEPRESS SERVER L30

Delivers outstanding colour, time-saving workflows

Choose new settings to produce more saturated, colourful and dynamic looking prints with this latest colour technology.

Create personalised print products using the Fiery FreeForm™.

Scale up to more advanced imposition and composition with intuitive optional makeready tools like Fiery Impose, Fiery Compose and Fiery JobMaster.

CANON IMAGEPRESS SERVER M10

Delivers outstanding colour and variable data printing capability

Use Fiery Colour Profiler Suite to take advantage of the extensive user controls in Fiery Edge technology to produce the most saturated, colourful, and dynamic looking prints. Accurately reproduce brand colours with Fiery Spot-On to ensure consistency among all printed documents.

Increase impact with personalisation using the leading Fiery VDP technology and powerful makeready capabilities.

Make last-minute image corrections, and use advanced queue management to assign print priorities with the features included in the optional Fiery Productivity Package.
