

FAST, EFFICIENT, EFFECTIVE DIGITAL TRANSFORMATION

Whether you're looking for a stand-alone laser device to manage every job in your home office or a flexible cloud connected multifunction printer to expand your existing fleet, Canon's imageCLASS X C1538iF delivers the solution. User-friendly, fast and easily maintained, it will streamline document digitisation for unsurpassed efficiency and productivity.

Colour A4 Multifunction Laser Printer ●●●●

PERFORMANCE

The imageCLASS 1538iF is one of Canon's fastest laser printers to date, generating its first print in just 5.9 seconds, then running at up to 38 pages per minute, in full colour. Loaded with impressive features for efficient digitisation, it will scan up to 150 images per minute, capture double-sided scans in one pass and eliminate the need for manual data entry with integrated optical character recognition.

SECURITY

Get to work knowing your business is protected with sophisticated security features, like McAfee™ Embedded Control which prevents programs from being tampered with and unauthorised programs from being executed during runtime. Securely retrieve documents from any networked device with authentication using Canon's uniFLOW® solution, send encrypted PDFs and add a digital device signature to PDF files.

EASY USE & MAINTENANCE

Canon's imageCLASS X C1538iF is designed to boost productivity from the start, with a 7" colour touchscreen display that has smartphone-like usability and a one-touch operation for routine jobs. Simple connectivity, easy Wi-Fi direct-pairing, and smooth integration with apps like Canon PRINT, Apple® AirPrint™, Mopria® and Windows®10 Mobile Print, make this the most efficient solution for your agile workforce.

And, when it comes to maintenance, an all-in-one cartridge with a long-life waste toner box means you'll get more done with less effort than ever before.
